

FINAL EXPENSE SOLUTIONS

FINAL EXPENSE
Simplified Issue
Whole Life Insurance
Designed to Meet Your Needs

Final Expense preparation is probably the least pleasant aspect of planning. More unpleasant, though, is the idea of leaving your loved ones with additional burdens and uncertain futures. GPM Life offers three different Final Expense policies based on your insurability qualifications.

- Help your loved ones cover funeral costs or pay off outstanding debts, such as medical bills.
- Leave proceeds to loved ones or charitable gifts to non-profit entities.
- Leave a memorial to your school, your church or synagogue, or medical research.

See page 2*

- (1) Multiply the appropriate premium rate (above) by the requested face amount / 1000.
For example, a 55 male NT (premium rate = 43.46) requests 10,000 face amount. $43.46 \times (10,000/1000)$ or $43.46 \times 10 = 434.60$
- (2) Multiply the result of your calculations by the appropriate modal factor: Monthly EFT - .088; Semi-Annual - .53; Annual - 1.0
 $434.60 \times .088 = \$38.2448$, rounded to \$38.24
- (3) If a Level Death Benefit (LDB/SIWL) policy is being quoted and an Accidental Death Benefit Rider (ADB) is requested:
Multiply the ADB premium by the appropriate modal factor.
(In our example above, the male ADB rate of $\$1.35 \times 10 \times .088 = 1.188$, rounded to \$1.19)

Gross Annual Premium Rates Per \$1,000 of Sum Insured

80	227.44	317.01	178.73	265.15

(4) A modal Policy Fee is added to the final premium: Monthly EFT - \$2.50; Semi-Annual - \$15; Annual - \$30

If this is a Semi-Annual mode, you would add \$1 Collection Fee to the final modal premium

(5) To calculate the final modal premium, add Base premium + ADB + modal Policy Fee + any Collection Fee

Using our example: \$38.24 + \$1.19 + \$2.50 = \$41.93
